

Hot Weather Policy

adidas Beaverton Cup

If temperatures reach 95 degrees we will institute the following hot weather policy:

There will be a 2 minute water break in the middle of each half. **Game clock will be kept running.**

Field marshals will inform referees if a decision is made to institute this policy.

Referees will inform teams prior to each game if the policy is in effect.

Please be aware that this policy may be instituted on turf fields and not grass fields since the temperature on turf fields is much higher than on grass fields.
